RUSSIA TO BUY WARSHIPS.

Crampe Have Contracts Which
Will Bring In \$40,000,000.

Philadelphia, June 2.—Nearly \$40,000,000 of good Russian currency will flow into American coffers during the next year or two in payment for American-built vessels of war. In addition to the recent contract signed between the Crampe and the Muscovite naval authorities, a similar contract involving a like sum of money will be signed in a few months between the same parties. More details of the first contract closed with Russia by Charles H. Crampe on his recent trip to St. Petersburg were learned, in addition to the two large men-of-war, one a first class battleship, and one a first class armored cruiser, the contract calls for ten torpedo boat destroyers, a formidable fleet of the terrible type of craft of the death service.

The Crampe will have full access to the building of these vessels. They will be finished throughout before leaving this city, armed, armored and ready for fight. In speaking of the immediate cause of the unusual activity on the part of Russia in naval matters, Mr. Crampe said: "It is caused by the requirements of the new attitude she has assumed as a naval power in the Pacific ocean. This attitude is in anticipation of the responsibilities which the completion of the trans-Siberian railway and the consequent vast increase of her territory and power on the coast of Eastern Asia must entail."

Full details of the second contract, which will be closed probably by autumn, have not yet been made public. It is known, however, to indicate that the Crampe's facilities for American-built ships will lead to the expenditure of another \$20,000,000 in this city.

The new Russian work will not interfere with the contracts in hand at Crampe's yards. All ships under construction are being rushed to completion. The Japanese cruiser Kassa is making rapid progress toward completion and will soon be ready for her trial trip.

BRYAN'S REGIMENT ACCEPTED.

Washington, D. C., June 2.—The war department has made an exception to its rules governing the appointment of troops among the states by consenting to muster in the regiment of Nebraska infantry of which William Jennings Bryan is colonel.

Under the second call for volunteers Nebraska a regiment was 640 men. When Gov. Holcomb was informed of this he sent a telegram to Secretary Alger asking that Bryan's regiment be accepted.

After consulting with the president Secretary Alger yesterday directed the adjutant general to inform Gov. Holcomb that the rules governing the appointment would be waived in the case of Nebraska and that Bryan's regiment would be taken into the United States service.

YALE AFTER A PRIZE.

Key West, June 2.—Advises from Port Antonio, Jamaica, are to the effect that the Yale is off Montego bay waiting for the big Spanish passenger steamer Purissima. Conception is put to sea.

MATANZAS IS AGAIN BOMBARDED.

New York, June 2.—A cable from Port Haytien this afternoon to the New York World says that Schley renewed his attacks upon Santiago this morning and did great damage to the fortifications.

It was found that additional mines had been laid by the Spaniards but these Schley destroyed. The insurgent forces are attacking the city in a determined manner and a bloody land fight has already taken place.

Washington, June 2.—Commander Schley and Admiral Sampson have been ordered to capture Santiago and San Juan this week, so it is officially stated here today. Sampson will bombard San Juan while Schley will continue his attack upon Santiago.

The members of the Board of Strategy expect decisive news tomorrow of important battles.

The two fleets today begin the two campaigns that will deprive Spain of Porto Rico and result in the destruction or capture of the Spanish fleet at Santiago.

New York, June 2.—Reports today from Hayti are to the effect that officials there expect a decisive engagement today between the American and the Spanish fleets at Santiago.

A SPANISH STORY.

London, June 2.—Spanish officials here reiterate the story that all of Cervera's fleet has left Santiago and that but one ship is left there.

SPANIARDS REJOICING.

Madrid, June 2.—In the senate today Count Cassa Valencia asked if the news of the American repulse at Santiago de Cuba was official. The Minister of Marine, Capt. Auca, replied affirmatively, asking: "The news is a good augury for further victories, which the courage

There is a strong probability that the army has already left American soil and is fairly on its way to the point of debarkation near Santiago de Cuba.

Strict orders have been issued by General Greely, chief signal officer, to the press censors at Tampa and other southern points not to allow any news relative to the embarkation of troops to be telegraphed until several days after the men have sailed.

TROOPS HAVE SAILED.

Washington, June 2.—Secretary Alger today practically admitted that transports laden with troops have already sailed for Santiago and Porto Rico. The date of sailing and the number of troops that have gone cannot be obtained on account of the strict censorship on war news.

MONEY FOR WAR.

Washington, June 2.—The house today passed the urgent deficiency bill carrying an appropriation of \$1,500,000 for war expenses. The bill will also be rushed through the senate. Secretary Alger says the money is needed now.

ANOTHER BATTLE AT MATANZAS.

Key West, June 2.—The Uncon and Leyden of the Mosquito fleet destroyed a Spanish block fort in the harbor of Matanzas Monday.

The fort had been built where the first fortifications had been demolished. The gunboats opened fire Monday noon and got the range at once.

The fort answered only once and its guns were abandoned.

It is reported that the shells from the ships leveled the fort and that several soldiers were killed.

A government dispatch boat reports all quiet at Havana, Cienfuegos and Cardenas.

ESCAPE IS NOW IMPOSSIBLE.

Washington, June 2.—Rear Admiral Sampson arrived off Santiago de Cuba yesterday afternoon, and, in accordance with his instructions, he at once relieved Commodore Schley in command of the entire force of vessels operating against Santiago de Cuba and the Spanish fleet.

They include the first-class battleships Iowa, Oregon and Massachusetts, second-class battleship Texas, armored cruisers New York and Brooklyn, probably also the New Orleans, Marblehead and Minneapolis, gunboat Nashville, torpedo boat destroyer Scorpion, dynamite cruiser Vauquius, torpedo boat Porter, auxiliary cruisers Harvard and Yale and the auxiliary gunboat Eagle.

With such a force blockading Santiago de Cuba, naval experts have heretofore contended that Admiral Cervera had a fighting chance to escape now concede that his position is absolutely hopeless.

A BAD ACCIDENT.

Boy at Fulton Gets His Foot Cut Off in Jumping off a Train.

Fulton, Ky., June 2.—Ollie Arm, a strong ten-year-old colored boy had his foot cut off yesterday. The boy fell in jumping off a train and rolled under the wheels.

SMALL AFFAIR.

Washington, June 2.—As Commodore Schley has not seen fit to report his engagement at Santiago Tuesday

it is believed he only sent a few shots at the forts and did not deem it of sufficient importance to report by cable.

LATE REPORT OF BATTLE

New York, June 2, 4 p. m.—Extras are out with cables saying the real battle of Santiago is now in progress.

The Cubans are fighting like lions to reduce Santiago de Cuba.

Schley is supporting from the sea and is doing some true American work. His gunners are making hawk-eye shots and their work is very effective.

Washington, June 2, 3:11 p. m.—It is generally believed that the report of the Santiago battle is true, although the department has no news. It is believed that the Cubans have had time to advance for fighting with Schley, whose squadron has been materially strengthened.

Experts credit the rumors.

SPAIN SHORT OF FUNDS.

London, June 2.—A Madrid cable says the Bank of Spain is nearing the most dangerous phase it ever passed over. The cable adds that the fact that the Bank of Spain is now unable to aid Spain further financially by force Spain to end the war for lack of funds.

It is known that every effort is being made by the Spanish government to secure a large loan, but it has not been successful, and the Bank of Spain's condition now threatens to do the Spaniards more damage than any other source of trouble they are trying to combat.

Probably 500 persons lined up at the bank during the run. All claims were represented, and all wanted without delay to change notes into silver, fearing the notes would soon be subjected to a discount.

The run on the bank yesterday was a perfect mad rush of hundreds of people trying to convert deposits into silver. Forced currency will have to be resorted to if the panic continues.

DEADMAN THE SUSPECT.

His Examining Trial is Set For Tomorrow Before Judge Tully.

The trial of Tom Deadman, the Ballard county negro charged with shooting Mrs. Lee Stanley last week, is set for tomorrow before Judge Tully, and there will in all probability be a large crowd of witnesses in the city to attend the trial.

It is not certain that Mrs. Stanley will be able to attend the trial which will be one of the most interesting ever held here.

HAIL STORM.

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home—makes the clothes right, makes the bill right. It costs but a trifle more to wear garments that fit than those that are a most fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited—it will cost you so little.

DALTON, THE TAILOR

TOUGH ON COL. COLSON.

Frankfort, Ky., June 2.—Gov. Bradley is said to be in receipt of a telegram from Washington yesterday indicating that Kentucky may not be allowed even one regiment under the second call, but may have to be contented with two battalions of 1,000 men while the remaining 950 of the second call for volunteers will be used merely as fillers for the regiments already organized, and which they claim are that much short of what regiments must be recruited to.

Such an order would knock out the hopes and plans of Messrs. Colson and Murray, who expect to be colonel and lieutenant colonel of the new Fourth regiment, and who would have to be content with the places of major of the two new battalions.

A CALIFORNIA woman shot at her husband and killed a bystander, which shows that even in the far West the new woman is not up to date in all things.

The readiness with which Russia gives big contracts to American ship building companies for the construction of battleships, shows that the Czar is not much afraid of any misunderstanding with the United States.

A GOOD stout war to awaken the inebriated and patriotic of the country, is the greatest blessing which can befall a free people. This title apt with the Spanish will alone add another century of civil liberty to the people of the United States.

There is an orbicel craze raging in Japan which bids fair to rival or outstrip, in extravagance the famous Dutch tulip mania, when fortunes were squandered on bulb and bloom. When fancy finds excuse to part with \$5,000 yen (\$27,500) for a single plant, one may conclude the people are about mad enough for any frenzy or folly.

Admiral Dewey has been elected a member of the Cook County Democratic Club, of Chicago. This following on so soon after his election as a member of Boss Crocker's club, of New York, is straining the old war dog's feelings to the last notch. Dewey is in Manila and cannot help himself, and will simply have to grin and bear it.

Just precisely what Spain expects may be seen by her heavy and extensive additions to the fortifications at Cadix. It is pretty well understood that when Cervera is disposed of, the United States will have several ships to spare, and that a cruise to the Mediterranean and thereafter would be a healthy exercise for the men. We may, while making computations of islands, take the Canary is, as we shall very likely need them in our business.

It will probably require peculiar jewelry to wear in a reuniting

of which exception Bryan gets to his colonel of a new regiment, they are yet unmade. They now have raised the cry that the President will send Bryan's regiment to the Philippines. It is said that over 7000 miles away from the seat of Bryan's fond hope, the presidency; and that this move is purely a political one for the purpose of shelving the trial of the free silverites.

And thus does the difficulty of the President increase. He must not only give a soft place to every ambitious politician, but he must put him where he can work his "quill" to the best advantage.

By all means let Bryan be sent to some point near Washington where he can see to it that he is not depend in the hearts of the devotees of 16 to 1. We want fighters and patriots at the front and not political schemers.

SOCIETY NOTES.

The past unusually gay season seems loathly to come to a close. Though the June breezes are somewhat sultry, they do not interfere with the pleasant activity in society.

This evening at the residence of Miss Mary K. Sowell a reception will be given to meet Miss Speers, of Chicago, and Miss Richardson, of Kansas, after which the party will take the cars for Roma park where dancing will be indulged in until a late hour.

The members of the Married Ladies Euchre club enjoyed an afternoon at cards on Wednesday of this week at the residence of Mr. Moscoe Burnett, on West Broadway. The game over, the pretty prizes were awarded the victors, and refreshing ices were enjoyed. Mrs. P. A. Hollisworth and Mrs. Laura Fowler tied for the club prize. Mrs. Fowler winning in the draw. The visitors prize Miss May Terrell won.

Paducah can always boast of having a levy of charming girls in her midst. In addition to those she claims as her own, there are a number of fair visitors here at the present time. Numbered among the visitors are the Misses Higgins, of St. Louis, guests of Miss Mae Paxton, who by their charming personality won the hearts of all on a former visit to the city.

Miss Nellie Palmer, of Benton, who has been attending Hamilton College, at Lexington, and graduated there with high honors is a guest of Miss Sue Jones, before returning to her home in Benton to spend her vacation. She was the youngest in her class, and is a most popular as well as accomplished young lady.

Mr. C. D. Hugglett, of the Postal Telegraph Co., has gone to his old home in Huntsville, Ala., on a visit. Mr. Rob Vint is in his place. He will be gone a month.

Misses Fannie Richmond and Anna Heeler, of Clinton, arrived from Hamilton college yesterday and were the guests of Miss Mary Corbett today.

In honor of Miss Glass, of Indiana, Mrs. James Clements entertains the Young Ladies' Club next week. When the Spanish fleet made its recent visit to Curacao it was short of coal, so short that Cervera offered as high as \$25 per ton, and at that enormous price he could buy but 300 tons of slack coal. But Capt. Osborn had 1800 tons of good coal, which he refused to sell to the Spanish fleet, even for its weight in gold, which goes to prove that all the heroes do not command ships or get commissions with big pay from the government.

DEMOCRACY is the unknown quantity in politics. There is but one determinable feature and that is to get and hold office upon any idea or pretext. There was a time when Jackson, Benton and others waged a fierce and successful war against paper issues and maintained the doctrine of "mint drops," as the best and proper money of the people, and that they should have the highest and best money of the world. What are Democrats doing now? Clamoring for issues of paper money, and issues of silver coin which is useless as a coin in any part of the world, and in no foreign market worth half its stamped value. What did Democracy say about greenbacks at the beginning of the rebellion? That they were unconstitutional and worthless. What are they saying now? That greenbacks are the best money in the world—unmistakable of the fact that they are not money but mere promises to pay money. This Democracy shows hot or cold, upon any principle or policy, as their office getting propensity may best be subverted. Look at their boastful pretensions in favor of free elections. Read the tons of printed speeches on the purity of the ballot and the freedom of the citizens. Then read the recent election commissioner's law of the last Democratic Legislature.

HARD TO PLEASE. The patriotic friends of W. J. Bryan have given the snap away. They complained loud and long that the President for political reasons was determined that Bryan should not get a soft commission in the army. Now, however, that the Secretary of War has taken the rule about the formation of new regiments, by means

of which exception Bryan gets to his colonel of a new regiment, they are yet unmade. They now have raised the cry that the President will send Bryan's regiment to the Philippines. It is said that over 7000 miles away from the seat of Bryan's fond hope, the presidency; and that this move is purely a political one for the purpose of shelving the trial of the free silverites.

And thus does the difficulty of the President increase. He must not only give a soft place to every ambitious politician, but he must put him where he can work his "quill" to the best advantage.

By all means let Bryan be sent to some point near Washington where he can see to it that he is not depend in the hearts of the devotees of 16 to 1. We want fighters and patriots at the front and not political schemers.

MUNYON'S RHEUMATISM

THE TERMS OF PEACE.

The President Has Made Up His Mind—Spain Must Get Out of the Western Hemisphere.

Cuba Independent, Puerto Rico Ours and Congress to Deal With the Philippines—These Are McKinley's Peace Terms.

Washington, June 2.—To a few of his congressional friends the president has disclosed the fact that he has made up his mind as to the terms which Spain must accede to before she can negotiate for peace.

He has determined that, first of all, she must consent to abandon her possessions in the Western Hemisphere.

Cuba must be turned over to the men who have been fighting for their freedom for over three years.

Puerto Rico must be turned over to the United States to indemnify this country in part for the cost of the war and for the loss of the Maine and her sailors.

The island is to be used by the United States for an outlying naval base in Southern waters for the Atlantic end of the Nicaragua canal.

As to the future of the Philippines, the president is still in doubt. He will probably ask congress to aid in reaching a conclusion as to what is to be done with the islands.

The president is hopeful that when Santiago is taken, the Cervera squadron disposed of, Puerto Rico subdued and Capt. Vico, Blanco reduced to actual starvation without the possibility of help from home, Spain will sue for peace. He is willing to grant it on the terms suggested.

IMPOSING

Were the Ceremonies Yesterday at the Opening of the Omaha Exposition.

President McKinley, in Washington, Pressed the Button That Started the Machinery.

Omaha, Neb., June 2.—It was a second past noon when the wheels in machinery had commenced to turn and the Trans-Mississippi and International Exposition was opened.

President McKinley pressed the button in Washington and made a connection which started the machinery in motion. In an instant fifty hands set forth sweet music, but were almost drowned by the cheers from thousands of throats.

Flags waved everywhere. As there was a full in the cheeks the great chimes in the dome of the great building clanged out their greeting and every musical instrument on the grounds changed its note and "Hail Columbia" thrilled the vast multitude to its very center.

This was the conclusion of the dedicatory exercises.

At 9 o'clock in the morning the drive parade started from the city to the grounds. It was five miles long. In the great auditorium Dr. Samuel J. Nichols of St. Louis assisted by a number of other prominent clergymen delivered prayer.

WHAT IS THE MATTER WITH KENTUCKY?

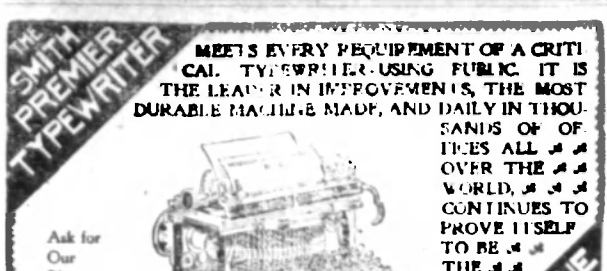

On Saturday's report of the total of volunteers mustered in under the first call five states only were still deficient in their quotas.

The total shortage of volunteers was distributed as follows:

Alabama, 1,355
Kentucky, 1,258
Mississippi, 1,000
North Carolina, 100

It is easy to understand that Iowa may not have a full number of volunteers in her military affairs in her battles over the prohibition question, and Alabama and Mississippi and North Carolina have probably had financial reasons for neglecting to keep up the militia organizations which have furnished the volunteers from the other states. But there is no excuse for Kentucky. Perhaps its melancholy failure is due to the government having called for private soldiers. On a call for volunteers Kentucky would have been the first state to fill up its quota.

CAUTION TESTIMONY. Canby Scott Thwarted the County Election to Lead the Truth.

An amusing story took place not long ago in the longest sheriff's court during a board of the county upon the circumstances attending the loss of the West Highland "puffer," or coasting steamer, the Helen Macgregor, says the Westminster Gazette.

The two men raised their fists together and at the very same instant there was a single bang as both went

BUGGY TURNED OVER.
Mr. Walter Sheppard, the well known engineer, was thrown from his buggy at Fourth and Broadway last night, but escaped injury, as did his companion. He was driving out toward the big pile of dirt at the corner, the buggy turning over. The horse ran to Terrell's stable, and the buggy was not damaged.

H. M. ALLEN KILLED.

Shot Dead in Mississippi By a Liveryman Last Monday Afternoon

Represented Michael Bros., of This City—The Murderer Escaped.

Mr. H. M. Allen, of French Camp, Miss., formerly of Murray, was shot and killed Monday afternoon by a liveryman named R. L. Trounly according to the Ledger.

They had an altercation regarding some baggage which Allen had with him. Trounly fired at him four times, two of the balls taking effect near the heart. Allen was not expecting trouble and was unarmed. He was in a sitting position when shot and Mr. R. Stubblefield was holding him trying to stop the quarrel. Trounly is a powerful, desperate man. He made his escape.

The remains of Mr. Allen were interred in French Camp. He leaves two children there, a mother and two brothers here besides other relatives and many warm friends. He has been traveling for M. Michael & Bros., of Paducah, with headquarters at French Camp.

OUR DOGS.
Those in the Pound Will Be Drowned Saturday if Not Called For.

Judge Sanders Has More Trouble With His Dog—Hows That the City for Stray Canines.

Marshal Collins will have the dogs that have been impounded at the city hall drowned Saturday morning. There are now about 80 or 100 in the pound, and there will be some when they go to take them out, and drown them. They are beginning to get hungry, and will soon begin growling, fighting and making a noise that will bring down the wrath of many a resident of the locality on the head of the marshal.

This morning the marshal sent down and got 61 worth of scrap meat for the prisoners, but it didn't last long.

The people are coming in rapidly with their taxes.

Yesterday afternoon several small boys were watching for country dogs when one came trotting behind a wagon on Oliver Gray's street. The boy had a rope and by several clever maneuvers soon had the animal captured, and were running along by the dog's cox him into submission. He went along very well until he found he was tied, when he turned on his captors and began snapping and snarling in true country dog fashion. They released him and he trotted along hanging on to him. The boys were running along and begged the farmer to stop and get their rope off the dog's neck, but he had a chance for revenge, and drove on with rope dog and all.

Judge Sanders came paid the first thing yesterday and paid the tax on his fox terrier. It is the same animal that has such runaway propensities. It won't stay at home. It is too fond of society. The other day it got out and when it came home was adorned with a beautiful coat of red. In an effort to remove the paint, the turpentine caused a panic at the house, and it was a day or two before animal was able to leave home. He came near being shot for mad.

This morning, however, the dog was found by the judge in the front yard with his tail fastened to a chair. He had been in that plight all night, and was exhausted when assistance reached him. Judge Sanders does not know what he can do with him, for every time he leaves home, he comes to grief.

Some of the boys are so eager to deplete the dog population, and to at the same time fatten their pocket books, that they lay in wait at the terminal of roads leading into the city for country dogs that are brought to town, and leave them the minute they get inside the corporate limits of the city. The local supply has about been exhausted with this exception of those that are being kept up by their owners to avoid the rash.

THE MAYOR'S LETTER.
Acting on what had been stated in the papers about there being a resolution of the old council relative to connecting with the sewers where possible, Mayor Lang yesterday called the matter his attention, having been besieged by petitions from citizens who desired to tap the sewers, and found that such a resolution was adopted.

He accordingly addressed to the city engineer a letter advising him that citizens desire to connect with the mains, and that he thereafter issue permits to them. He counseled his communication in modest, unpretentious terms, but intimated to the city engineer that the council regulated all such matters as refusing to allow people to tap the sewers.

This morning the engineer notified the mayor that he would have an answer ready by tomorrow.

TAX COLLECTOR'S PLANS.
Tax collector Lyon has decided to have certain times to be in certain parts of the city, and will announce through the papers where he will be, in order that everybody will know just where to find him. He will be in Mechanicburg for certain periods, on the North Side for a certain length of time, and will have a complete system for the collection of taxes.

POLITICAL TALK.
Ollie James Did the Right Thing. All That Was Left For Him to Do.

Congressman Wheeler Will Probably Have a Clear Track for the Nomination.

The withdrawal of Mr. Ollie James from the race for congress in the democratic primary has occasioned a great deal of comment today, but politicians professing to be on the inside assert that they knew it would happen a month ago.

The result is not hard to forecast. It leaves Mr. Wheeler without an opponent. It is said on good authority that Ben Keys will decline the popular nomination, and the result will be in the primary.

It is said that Mr. James has done the "clean thing"—and also that he could not have well done anything else.

The Murray Ledger says: Hon. Ollie M. James, acting with his best judgment, and on the advice of his closest friends, respectfully declines to make the race for congress. He has a written promise from Mr. Wheeler, that he, Wheeler, would not oppose James in this race, but in the interest of his party, and to avert what promised to be a real hot campaign for the nomination, Mr. James steps aside till next time, when we predict he will be unanimously chosen as the standard bearer of, indeed, he is not called even higher to serve his people.

NO ACTION
Taken at the Meeting of the Congregation Last Evening.

First Baptist Church Not Yet Decided as to the Remodeling of Their Edifice.

There was a business meeting held at the First Baptist church last night for the purpose of deciding on whether or not to remodel the church. A committee has for some time past been at work soliciting subscriptions for the improvement, but the amount subscribed is unknown.

The intention of the congregation is to convert the edifice into a ground floor church.

No action was taken last night, owing to the illness of Rev. W. K. Penrod, the pastor, who was unable to attend.

Mr. J. M. Fuller was elected superintendent of the Sunday school.

THE WRONG ROOM.
Col. Dale's First Experience as a Landlord in His New Hotel.

Col. Bud Dale smiled last night as he looked on the register at the New Richmond and saw it well adorned with names.

Late in the evening a man came in and said he wanted a good room. Col. Dale crossed over to the board and pegged off number 2. He gave the bell boy the key and bade him escort the gentleman upstairs to his room—one that was first-class in every respect he assured him.

Presently the dorky and the guest came down. The former was grumbling to himself. The other was puzzled.

"Lowsky here," began the guest. "What do you want to give me a room like that for?"

"Why, my dear sir, what's the matter with it?" asked Col. Dale in astonishment.

"Nothing, only I can't sleep in no bath tub," was the rejoinder.

Col. Dale had given the man the key to the bath room.

CIRCUIT COURT.
There has been nothing in the circuit court today but the hearing of a few motions.

The Clark Jackson case, mentioned in the morning paper as being on trial, was decided day before yesterday, and the judgment filed in time to be gotten in the N. S.

Deputy Clerk Will Kild is still unable to be at the office.

The Citizens' bank, of Kuttawa, filed suit against F. E. Bales, F. A. Hippie and T. J. Nickles, yesterday, for \$1500, alleged to be due on a note.

CROWD AT LA BELLE.
There was another big crowd at La Belle park last night, and another well-pleased crowd left back park at 10:30 o'clock. The performance was equal to those of the preceding nights.
